Digital Proprietary Telephone

KX-T7667

Smart-Looking Telephone that Answers the Needs of Today's Energetic Office

The KX-T7667 gives you a host of top functions plus one-touch access to Panasonic's PBX features. It provides 12 programmable CO keys with dual-colour LED, and a 16-character LCD that shows Caller ID, time and date. An adjustable tilt angle assures comfortable viewing.

16-Character LCD

The 1-line, 16-character display shows you either the caller's name or telephone number*, so you're ready to provide good customer service the moment you answer. It also shows the date and time, call duration, calling extension's number, and other useful information.

* To see the caller's name, the name and number must be registered in the PBX. To see the caller's number, you must subscribe to an Analogue Caller ID Service.

Programmable Keys with Dual Colour LED (Red/Green)

Enjoy one-touch operation of features such as Direct Station Selection (DSS), Log-In/Log-Out, or voice mail transfer. Dual-colour LEDs show convenient information. A Busy Lamp Field (BLF) shows which extensions are in use.

Message/Ringer Lamp

This large, easy-to-see lamp announces incoming calls or messages, so you'll always know whose telephone is ringing – even from a distance.

Navigator Key

For quick adjustment of the volume and display contrast.

Headset Jack

Talk while using your keyboard.

Tilt-Angle Adjustment

The telephone adjusts to either of two angles for easier use and a smaller, space-saving footprint.

Speakerphone for Hands-Free Convenience

Dial or talk without picking up the handset.

Call Forwarding/Do Not Disturb

Call forwarding transfers calls to a different telephone. The "Do Not Disturb" function blocks calls when you're busy.

Auto Dial/Store

For use with speed-dialling.

Conference

For making multi-party calls.

Transfer

For transferring calls to another extension or to voice mail.

Pause

Inserts a pause in speed-dial numbers.

Redial

For redialling.

Auto Answer/Mute

Auto Answer: For use with intercom calls.
Mute: Listen in without being heard.

Flash/Recall

Use to disconnect a call without hanging up, then to reconnect.

Hold

Places a call on hold.
